WHAT'S YOUR SIZE

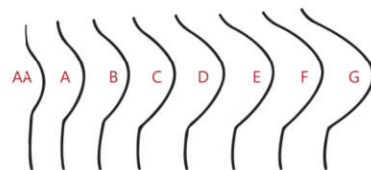

BAND SIZE

- Stand straight and breathe normally. Place the measuring tape around rib cage, right under your bra line.
- If the measurement is even, add 4 to the number and if the measurement is odd, add 5 to the number.
- For example : If it shows 28" on the measuring tape add 4, which means your bra size is 32. But if the measuring tape shows 29 add 5 which makes your bra size 34.

BUST SIZE

- For Bust measurement, please bend your body forward 30° to 45°. Place the measuring tape around the fullest part of your bust at the nipple level.
- Subtract your band measurement from your cup measurement.
For example: Step 1- Your band size shows 28" when measured so you add 4 to it which makes it 32.
- Step 2 - Your cup size measurement shows 34".
- Step 3 - $34" - 32" = 2"$
Your size is 34 B.

DIFFERENCE CUP SIZE

BRAS! NOT JUST A
MERE NEED, LET
WUNDERFIT TELL
YOU WHY!

TANGIBLE
SOLUTIONS FOR
REAL WOMEN OF
THE **MODERN ERA**

HEALTH ISSUES

Bras although considered as just a basic need is in reality far more than that! Bras of the right size can make your outer appearance look perfect while keeping you healthy and deprive you of pesky health woes like back pain, a bad posture and more! However, most women that shop for bras in India, tend to select the wrong sizes due to a myriad of reasons, such as, being unaware of their own size and being unable to locate comfortable bras online/offline.

Most women who purchase wrong sizes, might not have access to comfortable bras for real women with a real need for back support. This is where "Wunderfit" steps in to rescue women from potential health issues due to incorrect wardrobe size choices. Wunderfit as a company aims at providing solutions to women in India who might be working long hours either at home or office and need unparalleled comfort with equal support on all days of the week!

We all think that health issues and problems in life, happen to others and we are immune to these issues. While this is hopeful thinking, in reality, health issues can occur due to wrong choices made. For instance, wearing the wrong type of bra can lead to your spinal column getting pressurized which can in turn lead to a deformed spine in bad cases, along with a bad posture, trouble while walking and other inconvenient health issues.

WITHOUT **SLEEP** BRA

BACK SLEEPING

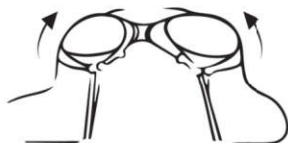

Sleeping on back without Bra means that her breasts fall outward and sideways into her armpits. While wearing a regular bra is better than nothing, stretching and spreading are still going to occur even if a regular Bra is worn while sleeping.

SIDE SLEEPING

Sleeping on side without Bra means that the top breast will sag and compress bottom one while etching deep wrinkles into the décolletage.

SLEEP BRA

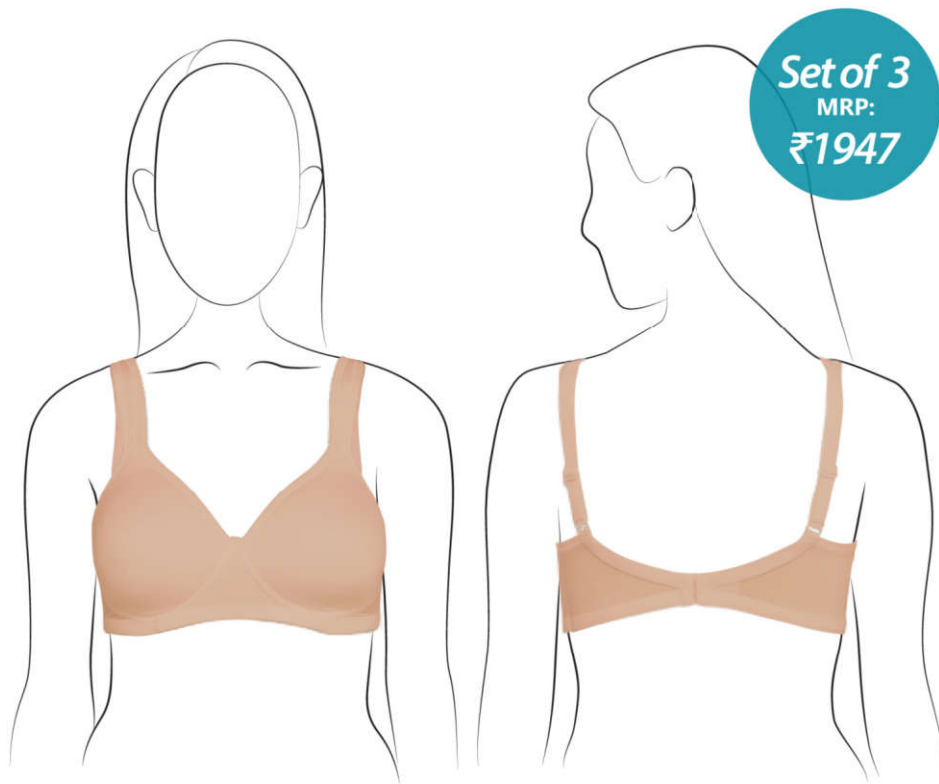

Wearing sleep Bra while sleeping on your back ensures that each breast is supported individually - firmly in place and in maximum comfort - so that neither will they move or stretch.

Side sleeping in sleep Bra means that even for those with larger cups, each breast will stay separate and in place without distortion or creating deep, unattractive creases in the décolletage.
